

I'm writing in reference to the radio station K-LOVE. I was disturbed to find out it is possible this station could be replaced by a LPFM station. K-LOVE is such an important part of our family & our community. It's a station that supports wholesome values & one of the only stations our whole family can enjoy together. Please take into consideration all the people who support & listen to K-LOVE & allow the station to remain as it is now, listener supported & reaching millions of people with a positive message everyday. Thanks you.
